Dear Harry,

Thank you for your letter and your kind remarks about my book. The literature on the assassination is quite extensive but most of the significant critical books and articles are mentioned in *Accessories After the Fact*, in the foreword and the appendix.

I wish you good luck with your school report on this subject. Unfortunately, I have very little free time and I will have to ask you to excuse me so far as a telephone conversation is concerned. However, I am enclosing my autograph, as you requested.

Yours sincerely,

Sylvia Meagher
