

13 January 1970

Dear Ted,

*Kupferman*

The enclosed petition from the Trust Territory of the Pacific Islands will interest you, I think, since it comments on the very point you made when we talked on the phone recently.

I had hoped to take advantage of your invitation to lunch and sit in at a Court session about this time, but no sooner were the holidays over than I found myself back on the treadmill of UN meetings. I will have to wait for a time when I can absent myself for a day.

You perhaps saw from the obituaries that my editor at Bobbs-Merrill, who was also my very dear friend, died of leukemia on the 2nd of December, at the age of only 35. I think that you knew Bob Ockene, if only by phone, and wanted you to know of this sorrowful event.

With warm personal regards,
