Dear Miss Meagher:

If it is not asking too much I would like to have your autograph to place in your book "Accessories After the Fact."

I have tried to get all of the books about this tragic event, that is, except the tripe, and I want to pass them on to my children and their children. With the differences that are prevalent now it will probably be very interesting about one hundred years from now.

A self-addressed stamped envelope is being enclosed.

Thanks.

Very truly yours,

*B. B. Christian*
