Mrs. Sylvia Meagher  
302 West 12th Street  
New York, N. Y.

My dear Mrs. Meagher:

You have no good reason to, but I hope you may, remember me/<sup>from</sup>when that NATIONAL ENQUIRER was trying to beguile the Warren Commission unbelievers to supply copy.

I noted with pleasure the publication and reviews of your book, but left that newspaper back in 1967. (I hope you are still at the United Natns.) When they couldn't buy your index you were kind enough to let them make photostats of yours but I don't want to go to their library.

I am now working for a very reputable and highly qualified clinical child psychologist who is preparing a textbook for Harcourt. She wants to do some reading on the history of Lee Harvey Oswald's psychiatric problem-childhood -- and I wonder if the Warren Commission looked into this thoroughly, and therefore your index would have it all documented.

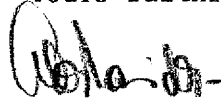

\* If that be true could you send me (in the enclosed) your references to all the reports and articles and scientific papers that were written on this phase of Oswald's childhood.

Or perhaps you could direct my psychologist to other definitive sources.

(The ~~her~~ broad scope of her work is ~~mentalk~~ emotionally disturbed children.)

With kindest regards,

Yours faithfully,

Adelaide B. Cann (Mrs. T. G. P.)  
CUNY Psychological Center  
3332 Broadway

Phone: 368-~~7~~ 6364

\* (If this is too/~~v~~great a time burden I could come to your office and borrow your Index and jot down the references.)
