Mrs. Sylvia Meagher
302 St. 12
New York, New York

Dear Mrs. Meagher:

Are you the same Sylvia Meagher who wrote the book on the Warren Commission? If so, I have some important information. I would like to see Mack Lane or others you know and speak to you concerning this issue. My 2 children were drugged, sexually assaulted, and permanently injured by this government mob. It was through my investigation of the latter that I was exposed to incidents concerning political crime. I have been harassed, intimidated and threatened and boycotted in employment for the last 4 years. All communication has been blocked via mail, telephone, wires, social contact. I have literally been isolated from decent society by this human barricade they have erected to keep me from getting help. I just fled Chicago (which is deeply involved in crime in the country) and am at the City Mission, 517 Hillside St., Elmira, New York.

One of my children (now 20) is stuck in Norfolk (also deeply involved, Norfolk, that is,) and in grave danger there, and I have been helpless to come to her aid.

Please try to contact me.
