dear mrs. meagher

this typewriter only types lower case...please bear with me.

i am finally about to buy my own set of the 26 volumes...could you let me know how i would be able to obtain a copy of your subject index....question marks are upper case.....could i buy one directly from you..

also...its been so quiet lately...could you let me know if anything is happening in the case....i have been quite isolated touring the midwest for the last few months...ive talked with many many people since the tour began...and i still havent found anyone who believes the report....

are any of the groups that were investigating it, such as the cci or the aic, still in operation....my letters go unanswered

is there any way of obtaining some of your earlier writings...such as those that were published in the minority of one

oh, and this may sound silly but, could you possibly suggest any specific areas in the case that may not have been fully explored...

please let me hear from you,

robert w. johnson
