Dear Sylvia:

Enclosed is a check for \$50.00 paying off the wager which I now concede you have won. The tall tramp is not Edgar Eugene Bradley. I imagine that by this time you will have heard from Harold or Trent or someone else that the chances were very slim of my being correct.

Some time ago Fred Newcomb in Los Angeles met Bradley and became convinced he really was on that bus to El Paso. Then Bradley visited Harold and Bud Fensterwald and they both were convinced also. The clincher came last week when I revisited Dealey Plaza and checked the height of the tall tramp using the photos and measuring the wire gate in the TSBD. The tramp is 6'4" while Bradley is 5'9".

I am not giving up on the tramps being involved, but I now am convinced that Bradley is innocent. Frenchy remains a very likely candidate along with the other two.

There is some possibility that eight Congressmen including William Fitz Ryan may take some action together on all three assassinations. At least they have shown interest after a long meeting with Bud. What have you been doing lately? My work has been quite limited due to problems in getting my new company going.

Best regards,

A handwritten signature in cursive script that reads "Dick".
