Dear Mr. Slemmer,

Just a very hasty note to say that on ^{page 7} page 7 of Oswald's passport there is a very, very faint stamp which under magnification seems to be an entry stamp into Helsinki dated "10 X 1959". It is alongside the exit stamp at London Airport but so very faint that I never noticed it. Someone else called it to my attention, after I mentioned the seeming problem of the absence of an entry stamp showing arrival in Finland.

Hope this is helpful. Best regards,
