Dear Sylvia:

Most distressed to hear of your indisposition,
and hope, and anticipate, your swift recovery.

I shan't burden you with a lengthy letter re
any of the many public improbabilities which have likely intrigued
us both (i.e. eyewitnesses not identifying Bremer, the FBI
"negative" paraffin test, the inevitable "notebook," etc.; the
Eagleton affair; etc.), but look forward to renewing our criticism
of such subjects.

My very best wishes.
