Re:

QUEEN'S UNIVERSITY MEMORANDUM

11 Sept 72

Dear Sylvia -

I heard that you were ill and in the hospital. I surely hope that things are better for you now.

I am awaiting word from Wecht regarding his viewing of the autopsy materials. Judging largely from newspaper articles, I have come to look upon this whole matter as disappointing and disagreeable, and I think, as Harold predicted, that Cyril will cause us much harm - chiefly because he is listening to the wrong people, which in his case is worse than listening to no one. I think that I shall never trust an "expert" again.
