Dear Paris,

Please forgive me for not having replied earlier to your letter of 26th September. I am just emerging from a long siege of illness. Bronchitis, followed by a horrible and disabling depression, followed by acute asthma. I was hospitalized for two weeks in July and then for four weeks in August/September; and after a deceptive "recovery" developed acute asthma.

It was during my hospital stay in August that Cyril Wecht got to examine the autopsy materials and held his press conference. I was astonished and dismayed at the results, as I gather you, too, felt.

Perhaps this (and also Hynek's book on UFO's) are best left for conversation when you are in New York. We are in the annual threes of the UN General Assembly, and I have a four-month backlog of personal and official work, to boot, but I would really like to see you. In case you do not have my office number, it is Plaza 4-1234 ext 2024.

All the best, as always,

Yours ever,
