Sylvia Meagher:

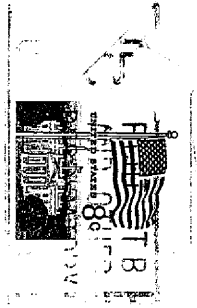

I have found what appears to be a copy of notes written by a conspirator in the Kennedy assassination. They comprise 77 typewritten pages and the beginning and ending parts are missing. Only about one third of these notes are about the assassination. They show a conspiracy, two shooters, and mention Oswald and Rube.

I have sent part of the notes of Penn Jones upon his request for examination. I would like to have you examine a partial copy for your opinion. I doubt that they are authentic but I would like to be sure. I will send you a copy if you promise to give me an impartial report on it.
Respectfully yours,

Mr. Adam B. Morong
