Dear Sylvia,

Charge summer. When I tell you about it you'll understand why I've been very "privatized" for the last few months. But that must wait til I get to NYC or you get down here.

Meanwhile, if you have Al Lowenstein's address could you send it to me? I promised Cyril I'd send some things on for him.

Nobody believed that it could happen to Nixon, but it did. I'm inclined to believe there are even more interesting levels to the Watergate affair that have not yet been plumbed. Ron Rosenbaum's piece in a recent (last week's) Village Voice was awfully suggestive. Why did they want to buy Harry O'Brien phone after all?

Love,  
Tom
