Dear Ms. Meagher,

I read your book Accessories After the Fact and found it to be a persuasive and well written criticism of the Warren Commission. It is certainly one of the finest books ever written on the JFK assassination.

Unfortunately I obtained my copy from the public library, and having to return it, would like a copy for myself. Would you happen to know where copies might still be available? I would appreciate very much if you could let me know. Enclosed is a self addressed post card for your convenience.

Thank you for your trouble.
