O Oracle:

once again I approach seeking knowledge and thank you so much for your last effort ..

this time I'm in a bind about how many extraneous shots have you read about ? Carr saw a bullet tear up the infield grass.... Manchester has a bullet striking the Elm St pavement .... but is there a third unknown shot .. I have Penn's scar on Elm's sidewalk complete with sighting back to the grassy knoll south and pictures and all that .. with two shots fired from Dal-Tex's roof and the Mammlicher-Garsano shooting three times from 'the' window I need one more ...ever heard of one I've not mentioned ??

thank you and trust you are well .. had a brief time with Tink in Phila before a sculling race last month. cheerio

SIGNED

Dear Bob,

Sorry, I can't produce the extra shot you are seeking. Everything I know about the number of shots is reflected in Accessories and/or the subject Index - and I have forgotten most of what I've known.

All the best

Sylvia
