Ms Silvia Meagher
302 W. 12th St
New York, NY

Dear Ms Meagher:

For the past year, members of the AIB have been lecturing throughout the country, giving an audio-visual presentation on the assassination of John Kennedy. The response has been great, both in sheer numbers of those attending the lectures and more importantly, in the manner in which people have been struck by the significance of the material. More and more people are expressing a sincere interest in seeking a full disclosure of the truth behind political assassinations and a desire to expose the corrupt and immoral practices of government agencies that have resulted in the suppression of truth as a matter of policy. In fact, the public's desire to know is so strong we feel it is time to begin involving more people in our work.

To that end we are scheduling a conference of assassination researchers, investigators, conspiracy analysts, political theorists, and activists. This conference, tentatively titled "the Politics of Conspiracy", hopefully will enable us to come together to share information, further develop our understanding of the issues, and finally to consider the question of how the expressed concern of thousands of people across the country might best be mobilized to confront the fraud and deception that have been and continue to be perpetrated at the highest levels of the United States government.

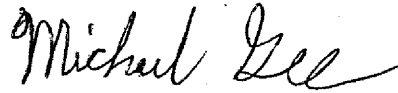

We have secured facilities for this conference for the weekend of January 31st to February 2nd, to be held here on the campus of Boston University. We have access to several large halls and a number of smaller rooms, allowing us much flexibility in scheduling. Our preliminary agenda calls for many workshops on a variety of topics during the day, with larger gatherings to be held in the evenings. We have had innumerable suggestions for workshop topics, but of course our main focus will be on the John Kennedy assassination and its ramifications. As one of the first researchers to present this issue to the public we feel your participation in this conference

(2)

would be an invaluable contribution to its success, both in consideration of the death of John Kennedy and in any other conference activities in which you might wish to participate.

In addition, we plan to make available to the public at this conference as wide a selection of assassination and conspiracy literature as possible. It goes without saying that we would like to obtain your books, which are so important to an understanding of the events of November 22nd, 1963. We'll be in touch as our plans progress and we hope to hear from you soon.

Sincerely,

Michael Gee

David Williams
