Dear Sylvia,

I would be more than happy to collect any newspaper or magazine stories on the assassinations that appear while you're away. I collect every article I find for my own files, so it would be no trouble at all to have copies made for you. Don't worry about the cost of the newspapers or magazines; I would be buying them for myself anyway and, because my aunt does most of my copying for me at her office, I rarely have to pay to xerox anything.

Within the next few days I'll send you a description of my encounter with a UFO. My work schedule is pretty strange so I haven't had a chance to type it up yet. If the researcher you know can make use of it, by all means give it to him.

Best wishes,

Karen
