Dear Sylvia,

The enclosed articles are all those specifically related to the assassinations, which have appeared in the local papers since about July 1. There have been alot on the CIA & FBI though, so if you want any of those just let me know. Most had to do with illegal domestic activities or drug testing. Harold has me collecting anything even remotely connected with the CIA, so I can always have a copy made for you when I copy them for him.

I stopped in to see Harold a few weeks ago on my way home from a job interview in Bethlehem. He asked me to say hello to you. He's working on a new book on the King assassination but, because of a heavy court schedule, he hasn't been able to do much writing lately. He's been having some good luck in court; a panel of judges that ruled against him before ruled unanimously for him this time around. Instead of telling him what he couldn't do, they told him what he must do, as far as collecting & preserving information. Of course, he's still encountering alot of stone-walling in response to his FOIA suits, but the walls are slowly crumbling.

Take care, & don't forget to let me know if ever there's anything I can do for you.

Best,

Kenn
