Dear James:

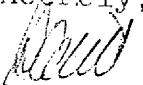

The handwriting expert has completed her preliminary examination of the material you sent to us. She feels that there is a strong chance that one of the pages - the one that begins, "My name is LHO, and I will tell you the truth..." could have been written by Oswald. She says that the name Lee H.O. in the first line resembles his chirography. There are other positive signs, but to be more certain she would like to examine the original. The other writing, including the ~~list~~ list of books, was not written by Oswald in her opinion.

I would like very much to show the expert the book that you hopefully still have in your possession. I would appreciate it if you could send the book to me by registered mail so that it can be examined. A conclusive determination is potentially very significant. I have absolute confidence in the integrity and reliability of our expert. I trust that you will be willing to send the book. You will naturally receive credit for its discovery, should something significant grow out of this entire examination.

Also, she informed <sup>me</sup> that the letter sent anonymously to Penn Jones, purporting to be a letter from Oswald to a Mr. Hunt, was indeed written by Lee Harvey Oswald.

Please send the book at your earliest convenience. I'll keep you posted on subsequent developments. Thanks very much.

Sincerely,

  
David Williams

My name is Lee H. S. and I will tell you the truth  
about me. In the book you will find what I want  
or a person.

The day is now 32 at least like now, as the  
big black clouds brown around the east  
part of Dallas you could smell death in the  
air but with mixed thoughts the greatest  
flooded. That we may find relief  
and today, and because of this trade many  
more have just entered the list this
