Dear Ms. Meagher,

I have become very interested in your work and initiative in the investigation of the assassination of John F. Kennedy. I have decided to employ this topic in a freshman research paper at Lebanon Valley College in Annville, Pa., and need your help.

If at all possible, would you please write to me your views of the present investigation, the Warren Report (so interestingly scrutized in your works), and any personal theory you may have formed to account for the assassination (the reason behind the conspiracy). I have read your book, Accessories After the Fact, and am fascinated by your knowledge!

Your speedy response (of course, at your convenience) would be of great help, since this is a research paper of a 'timed' nature.

I would like to thank you for throwing your personal assets towards a goal of finding the truth about the biggest deception of all time.

Sincerely yours,

Thomas R. Kurtz
