Dear Penn,

It was very generous of you to send me all the back issues of The Continuing Inquiry. I will read them with greatest interest. Congratulations on this effort and I am enclosing a check for \$24.00 for the next 12 issues.

Who is the "Schiller" who is filming in Dallas? If it is Lawrence Schiller, co-author of "The Scavengers and Critics of the Warren Report", then it is inconceivable to me that he would do a fair and honest job.

My health has been fairly good lately. I have not done any work on the case for some years, however, and feel very dubious about the House Select Committee.

My best to you and LA.

Sincerely,
