Mrs. Meagher,

I took your order this afternoon and then recognized your name after the call was over. I feel I must communicate to you the respect and admiration I have for your work.

Accessories After the Fact is a brilliant and stunning accomplishment — and

along with your Subject Guide to the Warren Report — is the touchstone all of us who seek the truth about our country have used in gratitude and sorrow.

Your dogged, heroic pursuit of the true history will never be forgotten, and some day your indictments will be proven and your service to all of us vindicated.

It was an honor to speak with you.
SINCERELY — JOHN P. STUEHR
