Dear Mr. Lieberman,

Thank you for your letter of the 22nd and for your generous remarks about my work on the JFK assassination. It is very rewarding to know that my writings are useful to others. Incidentally, although the Subject Index has been out of print for about ten years, copies are available on individual order from University Microfilms, Ann Arbor, Michigan.

I do not plan to review the books by Eddowes and McMillan. If you would like to chat about those books and other aspects of the case, I will be glad to cooperate, with one caveat—I have not really worked on the case for five years or so and am a bit rusty.

Give me a call at Chelsea 2-4293. I am at home most days.  
With all good wishes,

Yours sincerely,
