There, there dear boy; take another woman for a change in luck. Researchers don't equate "Marina's photos" with a slap in the face nor do they consider her testimony against Lee anything but a proper insult to the Commissioners and Staff. Squabbling over Z-frames is reasonable disagreement and it's input from your peers that enables you to look at piles of book cartons and pontificate, "My Government Lied to Me." A few nights of change and you'll be free to concentrate on Trilateral's Capitalistic Imperialism vis-à-vis the Communist Manifesto's Socialistic Imperialism.

La Société has monitored the critics' incredible offense (yours included) which alone brought about the 81 to 11 Gallup count favoring the truth. It is this uncoordinated effort which has forced the mythwriters' fabian fall-back from

Oswald: LONE-Assassin to Oswald: CONSPIRACY-Assassin

The current plethora of dis- and mis-information from Burnham, Eddowes, Epstein, Lardner, McDonald, both McMillans, Morrow, O'Leary, Thomas, Newsweek, Time, UPI, AP, ABC, CBS, NBC blasphemes in defensive concert. This flood of lies is sandbagged by only four private monographs, five shoe-string newsletters and a couple of boob-and-crotch slicks.

La Société implores the critics to cease and desist from second-guessing HSCA's final report and slandering counsel. Seize the initiative you now have and cancel the visit to JFK's grave November 22nd in favor of a May 22nd "attack" on Hon. Louis Stokes. With truth in hand assist/insist on a report November 22nd which:

1. names the President's assassins and designates Oswald the JFK Conspiracy Patsy
2. names Dr. King's assassin and designates Ray the MLK Conspiracy Patsy
3. fills the organisation charts for the conspiracy to assassinate JFK, the conspiracy to assassinate MLK and the conspiracy to Coverup (everything)

tempus fugit: it is also ripe to transform some conspirators-mythwriters into canaries.
