

5/6/78

Dear Sylvia

I very much enjoyed our evening together last night & hope to have many more such occasions in your company.

I have not had a chance to read this Smithsonian, but I was fascinated in the coincidence of an article on the universe about which you had expressed such an interest. Also we had talked about Mexico & I'm eager to read their feature article too.

I hope you have pleasure reading this issue & you may return it any time at all.

Looking forward to our next party night. Again I thank you & Mimi for such good companionship. Please feel free to call any time - 989-8112  
Fondly Joan.
