Dear Sylvia,

How time runs on, it looks as if I last wrote back in October. Since then I have received a kind present of a book from Fensterwald's office.

I continue to make progress -- by fits and starts -- since one sometimes spots the importance of a point after having perhaps read the same passage many times. But I am sure you would not do that.

I have now what I consider definite evidence that the assassination was the work of three groups working to the same end over five years:--

- 1) A group in Dallas, which I call the "Texan & ~~XXXXXX~~ Cabal". Of this Lyndon Johnson was doubtless the leader, but I have been careful not to say as much.
- 2) The Mafia --- of this Larry Crafard is the chief evidence, although there is an interesting quotation from Marcello, dated to a year before the assassination in Sam Anson.
- 3) The O.G.P.U. There is evidence of this in the Warren Report, although so neatly hidden that as far as I am aware, it has escaped the notice of previous writers. I have not your book before me -- I still have not been able to obtain a copy, so I can only borrow --- but you did not at time of writing drive the point home.

It occurs to me that the Republican party might be interested in an election year, for the deaths of Robert Kennedy and Martin Luther King Jr were evidently the work of the same gangs; and if the negroes were convinced that the Democrats covered up the assassination of King, they might even vote Republican.

The major difficulty is naturally time. Given my present health --- which cannot be counted on at 74 --- I shall complete the book in three or four years; but certainly not before 1980. But if someone would pay the expense of a visit to the U.S.A. and I had some help, that might be greatly shortened. --- Evidently if the negro vote went Republican, Carter would be hard pressed to withstand a Republican challenge.

I am writing to the Fensterwald Committee, who have been very kind to me in small ways.

I hope all goes well with you,

Sincerely yours,

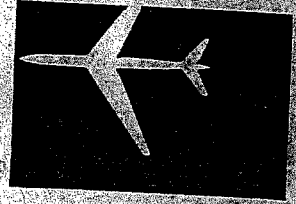

*Chris Candler*
