Dear Sylvia,

Scanning some documents I was sent recently from the FBI release, there is one which may be of considerable interest to you. It is FBI item 109060-7115, an FBI teletype of 11/23 summarizing the case against LHO as of that time.

With regards to Given, the teletype states: "Oswald was reading paper in the first floor dorm room seven fifty am NOV, twenty-two last when Given came to work."

The teletype contradicts the FBI 302 interview, and raises the question of whether the 11:50 cited there is a transcription error.

I don't have that document anymore, as I sent the whole batch out to Paul Hech, ~~for~~ but I'm sure he'll send along a copy.

Sincerely,

David Lifton
