

Belfast  
29 July 1978

Dear Sylvia,

I filed your last letter, as requested, and am now writing this reply which, when mailed next Monday, 31 July, should reach you when you have safely returned from your months holiday. I hope you have had a pleasant time and are now well refreshed for the trauma of the forthcoming Public Hearings in Washington - with all that that promises!!

Thanks for the loan of those Epstein articles from New York. I appreciate your gesture and am now returning them with a copy of the Dutch version for you files. You will also note a mention to them in the columns of the latest, enclosed, issue of JFK.AF. I'll hope that you enjoy it and that Dick Sprague's article on Clay Shaw doesn't result in you blowing your top - too much! Hopefully, we will still be on speaking terms.....

I spoke to Tony Summers by phone around about 7 July and, at that time he told me that he was off to the US for about a month on the 10th. He was especially keen to meet you and I gave him your address. Let's hope that he does make contact but your month away from home may have posed a problem? I'll look foward to any news if you did manage to get together.

I haven't had much subsequent contact with Ted Gandolfo but I had assumed from the tone of his correspondence and articles etc that he is a bit of an egotist. However, I haven't run across him - yet, and I understand that he has said a lot of nice things about the newsletter on his show, so, I'm thankful for that! No doubt he is right about Blakey and we will watch what develops over the next few weeks. I still cannot ever accept the basis conclusion that the Senate Committee have the resolution to want to uncover the truth behind the JFK assassination.

Facts on File Inc. 119 West 57 Street. New York NY 10019. published, a few years ago, Three Assassinations by Janet Knight, which was a basic primer on the JFK, MLK and RFK cases. The rumour now is that a second volume which zeroes in on the various conspiracy theories is now imminent.

Watch out too for: And We are all Mortal by George Michael Evica from University of Hartford Press and the long-awaited book by Seth Kantor, Who was Jack Ruby? (from a new set-up, Everest House of New York). Both on the Mafia connection which I know we share credible thoughts about!

My best regards for now and I'll be looking foward to news from you!

Sincerely,

Adley
