Mr. G. Robert Blakey
Select Committee on Assassinations
U.S. House of Representatives
3369 House Office Building, Annex 2
Washington, DC 20515

Dear Mr. Blakey

Enclosed please find a copy of your letter dated October 18, 1978.

I have just received your letter, which means that for nearly two months your letter was held up some where with the U.S. mail.

In your letter you asked that I call you by phone or write you by letter regarding the information I have.

In all due respect, Professor Blakly, my family and I feel this is not a logical and responsible means of communication with you and the House Assassinations Committee, due to the recent coincidences that have happened to us.

I will now discuss some of these with you so that you can better understand our reasoning for making this decision.

1. I have been visited by two men who have asked me in a very nice manner to forget everything I know, and what I have found out, "or else". Do you know what the statement "or else" means Professor Blakley?
2. I took my car to Midas Muffler Shop to have a new muffler put on. While the car was on the lift I discovered that the trailing arm on the rear of my car had been cut, almost into. If I had driven the car a little longer, it might have broken. This may have caused an accident or maybe death.
3. I have been followed by a car. Being objective I guess this man and woman were unknow friends of mine, who just wanted to show their love for me by following me around thown.
4. My home has been broken into twice in which only my files etc. on the assassinations were taken.
5. Last but not least my home caught on fire, and I lost everything I had.

Mr. G. Robert Blakey

So as you can see Mr. Blakley, although these are coincidences that have happened since my first letter to you, they are coincidences that my family and I must deal with.

Mr. Blakley I am still willing to talk with your committee, but only if I can do it before your committee. I will not discuss this matter by mail or phone. I love my country Mr. Blakley. I also considered it my duty as an American to talk with your committee. However, I must also protect my family.

I will say this much. There is evidence that there was a conspiracy to kill President Kennedy and Dr. King. With the information I have, if your committee concludes otherwise, you would have raped the truth.

I look forward to hearing from you.

Respectfully yours

Michael Marsh
