Dear Sylvia,

Although I still haven't gotten over the surprise of last weekend's announcement from Blakey & Co. I WAS very, very pleased to read your interview in the recent, latest issue of AIB's Clandestine America (which I just received a couple of days ago).

What the H**L is going on in Washington??

Is there any possibility of a piece from you on recent happenings for inclusion on the next issue of JFK.AF? I'll hope that you are still receiving copies safely - and enjoying them?

Tony Summers still hasn't returned to these shores although I heard from him from Dallas and he expects to - soon.

Can I ask you a favour over the next few weeks?

I realise that you will be keeping a lookout for items and materials which HSCA will publish and release so, can I ask you to keep me informed as fully as possible about availability, description of item, prices and ordering information etc. etc? Thanks a lot for your help (I hope!) on that as it will be a great boon to us ignorant beings over here!

Do you expect Hearings and Exhibits volumes a la Warren Commission?

I believe the Final Report will run to about 400 odd pages.

At this stage may I wish you a "Happy New Year"? All the best for now and I'll be watching out for your reply - and an explanation of HSCA's "turnaround".....

Sincerely,
