Dear Mrs. Meagher,

Having just completed your marvelous book, (apologetically for not having done so earlier) - I would like to pose a few questions if I may:

1. Is there any further references to Officer J. D. Tippit specifically prior to his death, biographical, etc.? (I am having great difficulty finding anything of substance on this man.)
2. When was the Freedom of Information Act enacted and as a result of what period of history? (Watergate, etc.)
3. Have the persons who were charged with the care of Jack Ruby during his imprisonment ever been interviewed? Also, what kind of cancer did he die from...that's another one there seems to be no reference about.
4. It would seem that the trousers in particular worn by Gov. ~~CONWALLY~~ that day would have been analyzed regarding traces of a bullet exit and the like. Was this ever performed and if so, what were the results?

I would appreciate any help you could offer...researching (as you well know) is a difficult thing relating to thoughts that occur to me that seem unanswered in what books I can locate.

Sincerely,

Mrs. Kathey Wadley
