Dear John,

I assume that you are not able to use my short article "JFK Conspiracy: At Last, It's Official". Meanwhile, someone else has asked to use it in an anthology. I would therefore be grateful if you would mail the article back to me as soon as possible.

On another subject:

Anthony Summers, a British writer (author of The File on the Tsar) and investigative reporter, is now in Dallas working on the JFK assassination and preparing to write what I expect will be a major book on the subject. He has uncovered explosive and exclusive new evidence on Oswald's activities and associations which he would be willing to disclose in a magazine article. I have told Tony that I would mention this to you. If you are interested, you can reach him in Dallas at 214-526-6202.

With all good wishes,

Yours sincerely,
