Dear Mrs. Meagher,

How nice of you to reply to my letter and answer many questions. It is a rare quality when an author takes the time out to respond to the reader. I do appreciate.

I am working with what research there is available to the public to draft a manuscript - a first endeavor and may end up a "vanity" book, however, the purpose is to simply condense as accurately and factually as possible the events of the Kennedy assassination for the lay person and the children (mine in particular who have no knowledge whatsoever about the Kennedy assassination, etc.)

Again, many thanks for your aid and for restoring my faith (it was slowly ebbing.)

Thanks again,
