950 BRIDGE STREET • WESTWOOD, NEW JERSEY 07675

July 30, 1979

Dear Mrs. Meagher,

Yours rec'd and for whatever it's worth - you are a phenomenon! Among all the researching of your peers; You, Penn Jones, and H. Weisberg are the only persons who "bothered" to respond and, with courtesy and aid. I applaud you in these apathetic times.

Your suggestions regarding "literary agents" will be heeded...correspondence to major houses hoping to create interest will substitute - (God, I don't know how to "hype"!) By the way, your publisher was the only one who actually scanned the first draft and responded with constructive criticism...that being more transcripts and interviews. Transcripts are no problem as my den is littered from the help of my Congressman and U.S. Senator - also, Birch Bayh sent a wealth of information.

I realize the "buff's" will be saturating the book shelves soon since the Final solution to the assassination by the government has been published. Fine, but that is not my aim. That aim is the hope to house under one tome the facts in as condensed version as possible for the children of the '60's (and un-informed) about the JFK assassination. The kids today are devoid of any knowledge other than handed down myths from their well meaning but un-informed parents and educators.

If I can achieve that much - I shall retire from the writing arena. If a few can be educated, it will rid my conscience about the nothingness offered to them to date. The college level isn't much better.

Many thanks again for your help and any further thoughts you might have would be well received.

Regards,

*Kathy Madley*
