Dear Mrs. Meagher:

In going through some old papers, I discovered letters from you which indicated that you might like to have copies of some of our reprints on various researches we did on the Kennedy Assassination as well as that of President Lincoln. I do not know whether I have already sent these to you, but am sending on another set, for your files, just for the record. We have a continual trickle of experimentation going on on this matter, interspersed with our other investigations on more important things, such as cancer cell growth, but I continually use your index to the Warren Commission Report, and appreciate the fact that you got it out so quickly.

Best personal regards.

Sincerely,

John K. Lattimer, M.D., Sc.D.
