MEMORANDUM

TO: Assassination Researchers
FROM: Bud Fensterwald

Enclosed you will find a copy of Jeff Goldberg's excellent article in the current Inquiry, as well as a sample copy of a letter sending the article to all members of Congress.

Also enclosed is a sample copy of a letter which I have dispatched to department heads at five Washington-area universities. The letter is self explanatory, and, if we don't get a "taker", we will try some other institutions of higher learning.

If (after fifteen years) you are still interested in continuing the search, and if we can organize some new educational organization, you may wish to play some role with respect to it. If so, please drop me a line.
