Miss  
Sylvia Meagher.  
Fire Island.

Dear Sylvia :

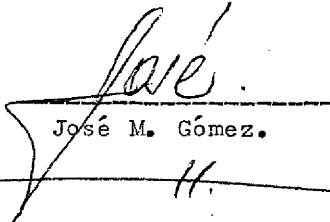

There are times in life when one looks back over the past years for evaluation, reconsideration and appreciation. You are there clearly and distinctly. You are in our past as a source of inspiration, as our moral and economical support, as an example of work and productivity.

This letter goes then to you with our personal and deep gratitude for everything that your generous friendship and warm personality have meant to us over the past decades.

We would personally feel relieved and gratified if you accept this modest check to help reduce our monetary debt. Because the other debt, that of the heart, will never die but daily grows with your kindness and constant invitations.

Rest assured of our love for you, unconditional and permanent.

Affectionately

  
José M. Gómez.
