September 9, 1980

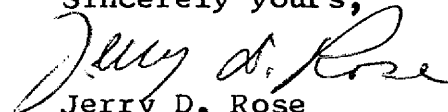

Ms. Sylvia Meagher
302 W. 12th Street
New York, New York

Dear Ms. Meagher:

I want to thank you for granting me a very enlightening telephone interview during my recent visit to New York. My respect for you as one of the most persuasive of "questioners" of the Warren~~x~~ Report was certainly enhanced; and my on-going study of "questionable investigations" will benefit greatly from your insights.

I am eager to see for myself some of the documents you mentioned that have vindicated some of your suspicions described in the Accessories work. As a newcomer to assassination studies, I salute your pioneering work and feel most privileged to have had some of the benefit of your experience. I appreciate your impulse to "retire" from the study, but I hope you will at least entertain further impositions of your time and patience from one like myself who is determined to carry it on.

Sincerely yours,

Jerry D. Rose
Professor
