

4/29/51 JH talked again to Knudsen.
He remembers Stringer. Took his photos
back, c 704 of 88 (a special technical agent)
put up to 5 rolls (used 3 cameras) in
Burkeley's safe. Next day or so took
photos from safe to Navy photo where
K. developed his photos, → EOB →
into 88 vault. Some days later
retrieved & went back to Navy center,
took negs & prints to West Wing WH
→ Adm. B and 2 88 agents
— one could have been Kellerman

He saw the photos once more before #SCA
contacted him & showed him the photos.
But some were missing, and he not
satisfied they were true copies of his
photos.
