Dear Sylvia,

A brief letter to accompany Issue No.43 which I've manage to cobble together to prove that it still exists is this season of vacations and so little news or developments.

I'm off tomorrow on vacation so my conscience has pricked me to write you a note beforehand as I should have replied to your welcome letter long before now. My (usual!) profuse apologies!!

Have you yet worked your way through Blakey's snow job on the HSCA? I'm attempting to with very little success as I can't work up much enthusiasm to accept his account of anything.

I note your views on Lifton.

Have you yet heardx anything more about this promised book by Kurtz? It appears that he has already had something in print about LHO in New Orleans in a magazine titled Louisiana History out of Lafayette. LO. Probaby a university-orientated publication?

In the fullness of time what overall reactions have you now had to the Master Index? I'll be interested ih your news and comments about that.

Our correspondence in on the QT (Top Secret) unless you authorise me to share specific items.

Dare I finally spoil this note by reminding you that \$6.00 will keep your subscription going. Sorry to sound so capitalistic!

My usual best regards and I'll be looking forward to your news and views when your time permits.

Sincerely,
