Dear Mrs. Meagher:

Enclosed is the notice of a bibliography compiled by myself and my husband and published by Greenwood this month. I have used my married name for this venture. The bibliography is based on our own collection.

I have had some correspondence with you over the years - always to the benefit of this work. Two of your books ACCESSORIES AFTER THE FACT and SUBJECT INDEX TO THE WARREN REPORT AND HEARINGS AND EXHIBITS both annotated are included. We exceedingly regret we did not include your new MASTER INDEX, but the manuscript was prepared and in to the publisher for photocopy before your book was available. We did however, include reference to your TLS of October 4, 1975, with enclosed list of 17 of your published magazine articles.

It seems a part of justice to let you know that the time you spent on a stranger was not wasted.

We hope our work will help your fine work become more well known than it is already.

With every best wish -

Dorothy Bohn (Ryan)
