Dear Dr. Behn,

Thank you very much for your kind and thoughtful letter of the 15th, and my most hearty congratulations to you and your husband on the publication of your Kenney Family bibliography. I am sure that this work will prove to be a valuable addition to the literature and I wish you all possible success.

Please enlighten me on one matter. I am mystified by your reference to the TLS (Times Literary Supplement?) of October 4, 1975, with a list of my published magazine articles. This is the first I have ever heard of my being mentioned in the TLS and I would greatly appreciate a description or a xerexed copy if you have one available.

Again, my congratulations and good wishes, and my renewed thanks for the great generosity you have always extended to my work.

Yours very sincerely,
