

TO: EDITORS AND PUBLISHERS OUTSIDE OF THE UNITED STATES

SUMMARY: U. S. publishers fear the truth in this matter of exposing the highest crime that a democracy can commit. I am a 62 year old American. While acting for an independent investigative group I tried to warn Senator Robert Kennedy - I failed. As a courier of evidence concerning the Kennedy assassination, I have been assaulted, arrested, robbed and tortured as a political prisoner held on false charges to stop me from carrying evidence to Washington, D. C. I am ashamed to be an American. I seek a fearless publisher.

I SHALL TRY TO OUTLINE A LARGE BOOK IN JUST ONE PAGE; I was a political refugee in Mexico City in 1966. A chance meeting at the offices of "Sicpro" magazine started a chain of events that have ruined my life and nearly got me killed. A representative of an investigative group asked me to do a patriotic job for my country. I agreed to try to warn Senator Robert Kennedy that plans had just been made to kill him if he ran for president. To lend authenticity to the warning I was given certain instructions and handed photographs of 4 of the 5 assassins on the "West" team who killed President Kennedy. I was also handed 28 documents showing the reason Kennedy was killed - the Albania connection. I was shown evidence that an assassination training center was operated by the CIA on Mexican soil.

Years earlier a group of rather conservative businessmen learned of the unlawful CIA activities. They became greatly concerned and set up an investigative group to discover who and where and why heads of state were to be killed, and impact such activities traceable to Mexican soil could have on trade relations and national stability. After initial discussions this group investigated me and I was chosen on what they termed "demonstrated courage".

The evidence revealed that in the summer of 1963 information was discovered that 3 teams of 5 assassins each were to be sent to the Miami area, the Chicago area and to a western area (believed at the time to be either Los Angeles or San Francisco), to kill President Kennedy because of his intervention in the Albania affair and other CIA operations playing with war. Two members of this group were killed when they tried to warn President Kennedy.

From Hawthorne, California, on 11 September I sent a certified letter - no reply. I sent several letters - no reply. From Santa Cruz, California, on 20 October 1966 I sent a certified letter No. 736412, to Mrs. Ethel Kennedy, Hickory Hill, McLean, Virginia. Six days later on 26 October 1966, I received a letter from the CIA signed by Carol Delaney, stating that an agent would stop by to see me. In the presence of a minister's wife the CIA agent stated, "It is impossible to contact Senator Kennedy except through the Agency." Later this CIA agent stated, "It'll do you no good to report this because I'll deny I was ever here."

What made America a great nation was a significant degree of honesty in its people. We have lost this greatness because of cowardly deceit to the extent that our whole government is a lie - and our whole nation is a lie. I am truly ashamed to be an American.

Part of the instructions was to not "go popular" or overtly publish until I delivered the evidence to a proper authority. Vehicles have been stolen from me by government employees on 21 occasions as a means of stealing documents and evidence from me; yet no government person or agency wants to be on record as having even discussed this evidence; much less duly receiving this evidence. Government will steal; but not duly receive the evidence free of charge.

Is the evidence true? The way government employees behave it indicates that somebody in government is afraid of the evidence - showing it is to some degree sufficiently true to warrant all the attention and cost of harassing me. I have been subjected to such painful torture and violence behind bars that I am now crippled and confined to a wheelchair. My disability money was illegally cut off in 1971 to silence me - forcing me to sleep out on the ground in cold and rain, and to eat from garbage cans. At present I get no income whatsoever from any source (in Big, Rich, America). A courageous lady investigated and found reason to lend shelter and an address. Last year there was an attempt to kill me in jail and this gallant lady borrowed money and saved my life. But, it's not over; government is now harassing her for helping me. The fact of 15 people trained in Mexico and sent to kill Kennedy was corroborated by an Italian newspaper.

I have received no expenses, no fee or no remuneration whatsoever for this service. I see this as a duty. The highest treason government can commit is to negate the people's vote by assassination. My greatest concern is that I may die with this task undone. Who will publish?
