Dear Folks:

An acquaintance knowing of my dilemma gave me your address.

I am a courier of yet unpublished evidence on the Kennedy assassination. I am pinned down here as a result of theft of all my belongings except my wheelchair - and I have been falsely arrested 8 times to cover up the theft.

I can no longer remain silent.

I seek a publisher while it is still possible to recover at least some of the evidence.

Do you know of anybody who is interested in exposing the facts known before the killing in Dallas? (facts that got 2 people killed in Washington for trying to warn Kennedy)

If you know anything at all that would help me locate a publisher - or someone who would help help - it would be a right thing to do. Could you forward my plea to someone who you believe is interested? Please do not abandon me.

I'm hurting.

Sincerely

N K Fields
