

Ed Williams

11/2/82

Dear Sylvia,

Hard to believe it  
is now nearly two  
decades since 11/22/63.

History was poorly  
served by The W.C., The  
H.S.C.A. and The Media.  
Carl Oglesby sent me  
a note saying that  
what was once a  
political issue has  
become an historical  
one.

Can the two ever  
be divided? For me  
"the issue" remains  
"irrelevant" since "past  
is indeed prologue".

The lack of a chain  
of possession has  
always made me  
dubious of the acoustical  
evidence. Albeit Gary  
Mark still supports  
its validity.

Accessories remains  
unanswered because  
it could only be

answered in terms of  
government complicity.

Blaker prepares a  
phantom "solution"  
anal even that was  
unacceptable to the  
media.

In final it illuminating  
that the Parkland  
personnel rejected the  
H.S.C.A. photo representation  
of the Pearl wound.

Lifton excused  
everyone except names  
Secret Service Agents  
anal Whitehouses the  
W.C. . A disgraceful  
performance since he  
knows better.

Congress didn't  
want the truth as  
Spreague's exit shows.  
Hopes

One always some  
new data will emerge  
but so much back  
in 1966! The real evidence  
was quite enough!

Hope this letter  
finds you well and  
enjoying your retirement.

Sincerely,
