as a result of reading this, I called my N.Y. Congressman's office and they connected me to the office of the House Intelligence Committee in Washington, D.C. Chairman Edward Boland wasn't in, so a member of his staff conducted a 20 minute search for what I requested, I.E. The House Intell. Comm. Report on this matter. I was told there is no report on this! I was told that Boland merely made a statement on the floor of Congress - one column of 1 page long, only, re this H.I.C. "investigation" of this important matter. We had a long (tape-recorded by me, of course) conversation. The result? He is sending me a copy of Boland's floor statement! I'll send copy to you when I get it. How do you like those apples??
