January 7, 1983

Dear Aunt Sylvia,

It was a pleasure to speak with you last evening. Although we only skimmed the surface of a very sensitive issue, I'm inclined to think it was a good beginning.

One day possibly we will have the occasion to sit down and talk. At that time you will have the opportunity to hear the whole story (or should I say my side of the story). Yesterday you mentioned having an objective view, I think in order to really be objective you have to be acquainted with the situation in it's entirety.

May I add, my intentions were never to hurt Diane etc. I thought me living in the East Brunswick area, the children would have the best of both worlds.

I will close now by wishing you and the entire family a very healthy and happy New Year. Anything you feel you can do to help create a better relationship between Diane and the children will be a God send.

Very truly yours,

*Manny*
