

July 19, 1984

Dear Aunt Sylvia,

I am having a great time at camp. The food is good, the counselors are mostly nice and I am making a lot of friends. I like to live a lot of work bolts because of the water fire had its stay indoors a lot.

Eight days ago I got sick and I had to go to the infirmary. While I was sick a war was started and I didn't know what was happening exactly but at the infirmary I found out what was happening in world news and at the Democratic National Convention from watching the news.

Camp will be over in a few days and there'll have two weeks before I go to Israel. I can't wait.

Love,
Mara
