Dear Sylvia,

Firstly, let me thank you for expending so much time to converse with me today. I've spoken to you only twice and may I say these conversations with you proved quite informative indeed. Thanks again.

Enclosed find the letter/article re Oswald's ties to the FBI sent to me yesterday by Richard E. Sprague, which I mentioned to you when we spoke.

I think it is quite an important bit of info. I'd surely like to know your opinion on it.

Yes, I certainly intend, and have already begun the difficult (as you well know) process of writing an all-inclusive book entitled, "The House Select Committee On Assassinations Coverup." For it, I will rely on the massive printed and taped files in my possession, which were obtained from documents supplied to me on a continuing basis by them during their 2 year "inquiry", and also from the many taped conversations I had with every committee member, their staff and investigators, other critics during those 2 years. I'm certain that I possess information which no other critic has from and about them, particularly about Blakey and the massive evidence he was instrumental in covering up/suppressing. It will be quite a book, I can assure you, Sylvia. Also, let me add that when it is completed, I will immediately send you a couple of copies. In my opinion, as stated, you have written the definitive book re the fraudulence perpetrated by the Warren Commission & in ALL aspects of their "investigation". By the same token, I immodestly assert that I will write the definitive work/book on the complete fraudulence which was perpetrated by the House Committee, especially, but not restricted to Blakey's role in this gigantic suppressions of the known(to them) evidence, which remains unpublished and, indeed, unknown by the majority of people of this country and the world. You have my word as a man on that, Sylvia. You'll see

Thanking you again, and hoping to hear from you re the enclosed piece, I remain,

Respectfully yours in struggle,

Bob Foster Piaggio.
