Dear old friends and new customers:

The ailing President Reagan will not complete his term in office says a leading psychic. She predicts he will last only 20 months into his second term or until about September 1986. The pressure is now on the Radical Right to remove Bush quickly and get a compromise candidate into the Vice-presidency before Reagan is gone. Otherwise the "Atlanticist" bankers will again pick up all the marbles as they did with Jimmy Carter.
